..... **WELCOME**

At **WCP&ME**, we strive to produce the best standard of equipment at the best price offered. We manufacture every aspect of our products using high grade steel.

PRODUCT RANGE

Metal Equipment

Traction bed
Neurological beds
Tilt electric beds
Mobile mirror
Over bed table
Pull-up poles
Parallel bars
Standing frame
Trolleys
Basic beds
Basic electric beds
Bed steps

We manufacture beds from Basic standard beds with adjustable headpiece, to complex motor driven Neurological beds.

The motors we use are slow-stepping and can carry up to 250kg of weight. Our motorized beds therefore move slow and smoothly to their adjusted height.

Belts

Lumber belts
Traction belts
SI belts
Slings
Red Theraband tube
Ankle & wrist weights

Our trolley range comes in stainless steel or epoxy coating.

We manufacture from 3 tire trolleys to units that are able to dismantle and transport friendly.

Most of our products are on castors, but we can manufacture to your specifications.

Sundries

Bed sheets (with face hole)
Linen savers
Lumber rolls (full & half)
Cushions
Sock pullers
Zip pullers
Bag handles
Theraband handles
Button hooks
Bed ladders
Raised toilet seats
Utility straps
Bolsters, wedges & matts
... and many more

We have an excellent range of first aid kits that can be manufactured to your requirements - from the bag to the contents.

This is our range of slings - from a body sling to the foot sling.

Great care goes into our work, and every product that leaves the factory is hand made and quality checked. We pride ourselves on our workmanship and focus on producing perfect products, or strive to achieve that perfection.
